

Action Research Change to stop violence against women

Welcome members!!

ARC is now ready and welcomes your membership.

The founding members are currently interested in hearing your suggestions for activities and actions to focus on over the next year.

This is a group that is evolving and we are building as we go.....and looking forward to an election for new council members September 2016.

We will be launching our first open meeting in November and we will forward you the information to join the online call.

Until then please watch our website for updates, share your ideas and send in your membership!

Many thanks

ARC Sage Council
